WHY MITOCHONDRIA MATTER FOR SKIN

ATP Production
Powers skin renewal.

Collagen Synthesis
Supports collagen and elastin.

Cell Repair
Maintains barrier integrity.

ROS Balance
Neutralizes free radicals and slows aging.

ACTIVE INGREDIENTS

Urolithin A

Gold-standard mitophagy activator — clears damaged mitochondria & drives renewal

Resveratrol

Blocks ROS attacks on mitochondria; activates SIRT1 pathway to enhance mitophagy

Human-Identical Collagen

Deep dermal delivery via microneedling; immediate structural repair

Hyaluronic Acid

Deep hydration; restores plumpness alongside cellular regeneration

HOW MITOSHOT WORKS

1 Identify

Damaged Mitochondria

2 Eliminate

Old Mitochondria

3 Biogenesis

New Mitochondria

4 Restored

Youthful healthy cells

Urolithin A directly triggers this process — clearing damaged mitochondria and generating new ones.

VISIBLE IMPROVEMENTS

BEFORE

AFTER

HEALTHIER SKIN. VISIBLE CONFIDENCE.

Real results. Real clients. Real confidence.

Fine Lines & Wrinkles

Enhanced collagen regeneration restores the dermal support structure

Elasticity & Firmness

Increased elastin and hyaluronic acid synthesis revives lax skin tone

Brighter, Even Tone

Accelerated cellular waste clearance normalizes pigment metabolism

Deep Hydration

Restored stratum corneum integrity locks in moisture longer

Accelerated Repair

Ideal for post-procedure care; healing timelines measurably shortened

TREATMENT FREQUENCY GUIDE

- Every 1–2 weeks — 4–6 sessions
- Monthly sessions to sustain mitochondrial activation and skin health
- Twice daily, AM and PM, as part of an ongoing routine for continuous support
- Apply on the same evening to amplify and consolidate repair outcomes

APPLICATION PROTOCOLS

A Microneedling /
Morphous8 (0.5–1 mm)

IN-PRACTICE

B Electroporation /
No-Needle Delivery

IN-PRACTICE

C Daily Home Care
