

SONOTEK SerumFlux

Precision Infusion Technology

01 Cordless microneedling pen for professional and at-home treatments

02 Delivers a **smoother**, more **convenient** experience than traditional devices

03 Enhances **absorption** of active skincare products

04 Improves **skin texture** & minimizes **fine lines**

05 Integrated cartridge **infuses serum** directly during use

Dual-Action Skin Rejuvenation

Microneedling & Healing

- 1) Ultra-fine needles create micro-channels
- 2) Triggers natural healing response
- 3) Stimulates collagen & elastin for firmer, youthful skin

Creates micro-channels

Stimulates collagen
& elastin production

Serum Infusion & Absorption

- 1) Integrated cartridge delivers serum directly
- 2) Maximizes absorption into micro-channels
- 3) Enhances treatment efficacy

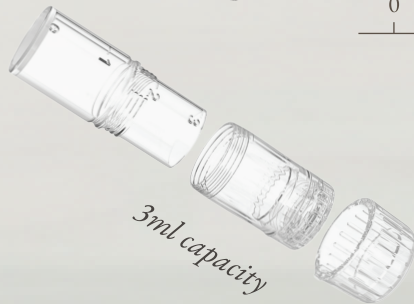

Delivers serum directly

Maximizes absorption

Enhances efficacy

Nano-Round Cartridges: Gentle, pain-free, no-downtime option for sensitive skin and delicate areas.

3 Serum Flow Levels

6 Speed Levels

Comes with two microneedling tips (*12-pin and 36-pin*) plus a *non-invasive Nano-Round tip*, providing solutions from intensive treatments to gentle, pain-free care

12-Pin Cartridges

- Improves overall skin texture
- Targets fine lines and mild acne scars
- Versatile for general facial treatments

36-Pin Cartridges

- Effectively treats stretch marks and extensive skin concerns
- Ideal for larger areas such as the body
- Provides faster, broader coverage

Nano-Round Cartridge

- Completely non-invasive option
- Ultra-fine tips boost serum absorption
- Suitable for the entire face
- Pain-free, no bleeding, no downtime
